## **RIDESHARE PROGRAM**

A recent review of the RideShare (Carpooling) program has resulted in revisions to the previous RideShare program. The revised program now provides two (2) RideShare options on University property, which will be available to any students, residing off University property, or employees registered with these programs. These options, which come into effect on January 1, 2009, are outlined hereunder:

- a) **RideShare Option One (Reserved Parking Space)** – A minimum of three (3) full-time students or employees, each of whom must be eligible to purchase a parking permit, may apply for a RideShare (Reserved) Parking Space, provided that all applicants do not reside at the same residential address.

RideShare Participants will be issued individual RideShare Parking Permits, each bearing a registration number corresponding with their assigned reserved parking space, and they must all register their three (3) individual vehicles with Security Services. Under the terms and conditions of the RideShare Agreement, no less than three (3) of the participants are required to be present in one (1) of the three (3) registered RideShare vehicles on, at least, four (4) days each week, when parking at the University, in order to maintain their RideShare status. As it is anticipated that there may be some rare occasions when all RideShare participants will not be able to carpool together, due to other personal commitments, each RideShare participant will be eligible to receive a maximum of three (3) Complimentary Daily Parking Permits (\$27.00 value, per person), each year (September 1 to August 31), to assist them, should they have to utilize their own personal vehicle on such occasions.

**\*NB: Between 7:00 am – 7:00 pm, Monday through Friday, RideShare (Reserved) Parking Permits are only valid at their designated Reserved Parking Spaces. During evenings (7:00 pm – 1:30 am) and weekends (7:00 am – 1:30 am), RideShare (Reserved) Parking Permits are also valid at any regular parking space at Sexton Campus, Carleton/Studley Campus, including the McCain Parkade, CSB Parkade/Parking Lot, or the Carleton Parking Lot.**

- b) **RideShare Option Two (Student <Regular> Parking Permit)** – A minimum of three (3) full-time students, each of whom must be eligible to purchase a parking permit, may apply for a Student RideShare (Regular) Parking Permit, provided that all three (3) registered applicants do not reside within the peninsula of Halifax (South-east of the Armdale Rotary to Dutch Village Road/Joseph Howe Drive). Registered students (maximum of three <3>) may all reside at the same civic address, but they must all register their three (3) individual vehicles with Security Services. All registered participants must also be present in one of their registered vehicles on, at least, four (4) days each week, when parking at the University, in order to maintain their RideShare status. As it is anticipated that there will be rare occasions when all RideShare participants will not be able to carpool together, due to other personal commitments, each RideShare participant will be eligible to receive a maximum of three (3) Complimentary Daily Parking Permits (\$27.00 value, per person), each year (September 1 to August 31), to assist them, should they have to utilize their own personal vehicle on such occasions.

**\*NB: Between 7:00 am – 7:00 pm, Monday through Friday, Student RideShare (Regular) Parking Permits are only valid at authorized regular parking spaces, at the campus identified by the Parking Permit. During evenings (7:00 pm – 1:30 am) and weekends (7:00 am – 1:30 am), Student RideShare (Regular) Parking Permits are valid at any regular parking space at Sexton Campus, Carleton/Studley Campus, including the McCain Parkade, CSB Parkade/Parking Lot, or the Carleton Parking Lot.**

To assist potential RideShare participants in searching for other Dalhousie University students and employees who may be interested in participating in either of these RideShare Programs, consideration may be given to attempting to search for other potential RideShare Partners through the Halifax Regional Municipality Transportation Demand Management Ridematching System, available through HRMSmartTrip.ca, which allows commuters to quickly and safely find carpool partners.

The system matches people based on proximity to origin, destination points and travel route(s), as well as similar working or class hours and compatible carpooling preferences.

HRMSmartTrip.ca is FREE to use. It's secure. It's easy. It's fast. A matchlist is returned instantly when you search for carpool partners. No personal information is released to potential matches.

Simply email the individual on your matchlist and then it's up to you to discuss the arrangements, so that your new carpool will work for you.

For more information, check out their web site at:  
<https://www.hrsmarttrip.ca/Public/UserSignIn.aspx>

Further information regarding the RideShare Program may be obtained by contacting Security Services (494-6400).

## **IDLING VEHICLES**

Air quality is an issue which concerns all of us. Exhaust from idling vehicles adds to the burden of outdoor air pollution and sometimes finds its way into buildings. In addition to the adverse affect on air quality, idling emits greenhouse gasses that contribute to the threat of climate change.

Idling engines waste fuel and, according to Natural Resources Canada, significantly reduces the operating life of engine oil and increases maintenance costs. We, therefore, encourage drivers at Dalhousie University not to let their engines idle while parked on University property, or elsewhere.
